

EXPERIENCE

Day3

"On the first day of intramurals, I couldn't enjoy myself due to fever. I signed in for attendance since I was already there.

Unfortunately, I couldn't join the parade because my body couldn't handle it, especially with this severe headache and the scorching heat. I watched some volleyball games and headed home after a few hours to rest.

Later that afternoon, I returned to watch the Ms. and Mrs. Intramurals event. I signed in with the instructors, went upstairs to watch, took a photo with our representative, and then headed home with Ma'am at 9 PM."

My INTRAMURALS

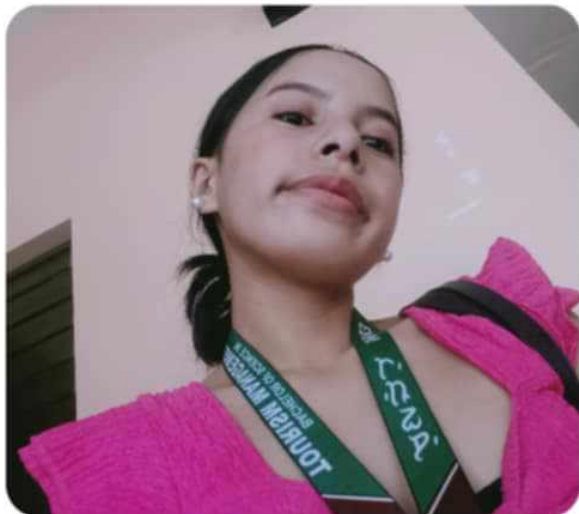

EXPERIENCE

Day2

On the second day of intramurals, I felt so happy because I wasn't sick anymore. I woke up early to get ready and make it to school on time,. After that, we watched the volleyball games and hung out at the canteen. I really enjoyed it because the games were so exciting! Later, we checked in with other instructors so they knew we were present. After a while, we went out for lunch, then returned to watch more activities. We wanted to find the karaoke booth but couldn't, so we went to the old building for a photo session. We checked in with the instructors again in the afternoon, and afterward, I headed home early."

My INTRAMURALS EXPERIENCE Day3

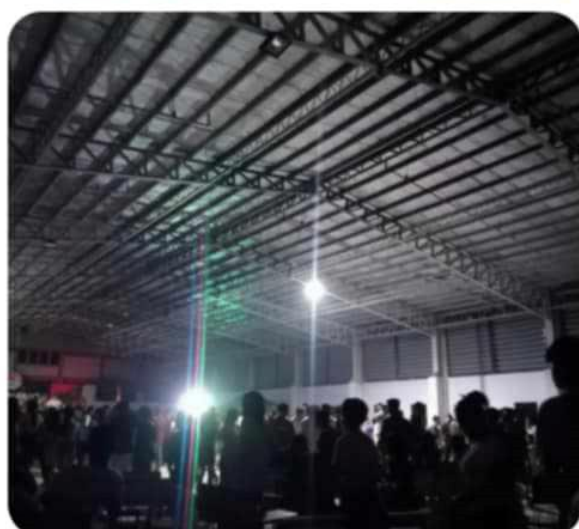

My third day of intramurals was unforgettable!

I arrived early for attendance, watched volleyball, and relaxed at the canteen. We screened the chilling horror movie "Hungry," which left us shaken. After lunch, we returned for attendance, played blindfolded games with Mariel, and enjoyed the lively atmosphere. Ending the day with attendance, I headed home.

EXPERIENCE

Day 4

Our last day of intramurals was filled with excitement as our team played in the final, celebrated during the awards ceremony, and then enjoyed a live band event with students, teachers, and families dancing and relaxing together. It was a day of laughter, teamwork, and unity, creating memories that went beyond just the competition.
